

KISS

Humanitarian

Award

2013

Ms. Albina du Boisrouvray
Founder FXB

Madam,

One needs the vision, the courage and the conviction like you to think, "For the Forgotten issues of Forgotten people in Forgotten places". As a visionary, you could strongly believe that "Investing in Children is Investing in World Peace and Security". You have the courage to turn your private pain and wealth into loving care for the millions of orphans and vulnerable children across the world. Leaving a successful career in films and media and braving the pain caused by the accidental demise of your only child, you devoted all your energy, creativity, solid experience and credibility as an entrepreneur to humanitarian causes as well as social development and research on numerous projects worldwide. Establishment of FXB International and developing the strategy to link Health with Human Rights speak volumes about your concern and contribution to the society. Awards like L'Ordre National du Merite, "Outstanding personality of the Year 2004" from Thai Komol Khemthong Foundation; 'Life Time Achievement Award' from India; North – South Prize by Council of Europe, Legion d'Honneur; John Harvard Fellow and the Doctor of Humane Letters Degree from University of Michigan stand testimony to your dedication, courage, conviction as an outstanding human being and a caring mother.

In admiration to your qualities, concern for the millions of vulnerable children and a vision for a world having linkage between Health, Human Rights and Poverty Eradication, the management of KISS unanimously resolves to confer on you the "KISS Humanitarian Award – 2013" on this day, the 26th February 2014.
